Put Thinking to the Test Lori L. Conrad

How can teachers use the comprehension strategies put forward in books like *Strategies That Work* and *Mosaic of Thought* to help students become not just better readers and thinkers but also better test takers? The four authors of *Put Thinking to the Test* have spent years pursuing that question and have developed a groundbreaking approach, as their colleague Ellin Keene writes in the foreword to the book:

I knew that Lori, Patrick, Cheryl and Missy met frequently to discuss professional issues and that they were working on a book related to testing. I had no idea, however, that their proposal would be so fresh, so original and, simultaneously, so sensible and immediately useful.

Just as comprehension strategies have helped millions of students learn to read like proficient readers, they can also help students think like effective test-takers. The authors show how students can use background knowledge, mental images, synthesizing, monitoring, inferring, questioning, and determining of importance to understand the genre of tests and to think through the problems they are given. Instead of engaging in artificial and disconnected activities to cram for upcoming tests, students learn skills and strategies that will serve them throughout their school careers and beyond.

Presenting numerous classroom vignettes featuring students in grades 3–8, *Put Thinking to the Test* includes:

background on how the authors came to understand this work so that a staff, team, or individual teacher can apply these concepts in their own school setting.

From reader reviews:

Gertrude Call:Book will be written, printed, or descriptive for everything. You can realize everything you want by a e-book. Book has a different type. As you may know that book is important point to bring us around the world. Next to that you can your reading talent was fluently. A e-book Put Thinking to the Test will make you to be smarter. You can feel far more confidence if you can know about almost everything. But some of you think that will open or reading any book make you bored. It is far from make you fun. Why they can be thought like that? Have you seeking best book or appropriate book with you?

Louise Rosenbaum:Spent a free time for you to be fun activity to do! A lot of people spent their free time with their family, or their friends. Usually they doing activity like watching television, gonna beach, or picnic from the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Could possibly be reading a book might be option to fill your free of charge time/ holiday. The first thing that you ask may be what kinds of publication that you should read. If you want to attempt look for book, may be the guide untitled Put Thinking to the Test can be excellent book to read. May be it can be best activity to you.

Ilene Cody:Your reading sixth sense will not betray you, why because this Put Thinking to the Test book written by well-known writer who knows well how to make book which might be understand by anyone who all read the book. Written with good manner for you, dripping every ideas and writing skill only for eliminate your personal hunger then you still hesitation Put Thinking to the Test as good book not only by the cover but also from the content. This is one reserve that can break don't evaluate book by its cover, so do you still needing an additional sixth sense to pick this kind of!?! Oh come on your looking at sixth sense already said so why you have to listening to a different sixth sense.

Scott Bourquin:As a college student exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's spirit or real their passion. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that looking at is not important, boring and can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Put Thinking to the Test can make you experience more interested to read.
