An Efficient Energy Future: Prospects for Europe and North America Yong Zhou

An Efficient Energy Future: Prospects for Europe and North America is a two-part book exploring the energy problems and policies for Europe and North America. The first part deals with energy demand problems and policies of the countries; two possible energy futures based on the scenarios of the MEDEE model; and energy demand projections for specific sectors: buildings, transport, and industry. The second part presents a collection of relevant energy demand indicators for the housing, transport, and industry sectors for all 17 covered countries.
