Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering)

W Sha, Xiaomin Wu, K G Keong

Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) W Sha, Xiaomin Wu, K G Keong

Unlike electroplating, electroless plating allows uniform deposits of coating materials over all surfaces, regardless of size, shape and electrical conductivity. Electroless copper and nickel-phosphorus deposits provide protective and functional coatings in industries as diverse as electronics, automotive, aerospace and chemical engineering. This book discusses the latest research in electroless depositions.

After an introductory chapter, part one focuses on electroless copper depositions reviewing such areas as surface morphology and residual stress, modelling surface structure, adhesion strength of electroless copper deposit, electrical resistivity and applications of electroless copper deposits. Part two goes on to look at electroless nickel-phosphorus depositions with chapters on the crystallisation of nickel-phosphorus deposits, modelling the thermodynamics and kinetics of crystallisation of nickel-phosphorus deposits, artificial neural network (ANN) modelling of crystallisation temperatures, hardness evolution of nickel-phosphorus deposits and applications of electroless nickel-phosphorus plating.

Written by leading experts in the field Electroless copper and nickel-phosphorus plating: Processing, characterisation and modelling is an invaluable guide for researchers studying electroless deposits or materials science as well as for those working in the chemical, oil and gas, automotive, electronics and aerospace industries.

- Written by leading experts in the field, this important book reviews the deposition process and the key properties of electroless copper and nickel-phosphorus deposits as well as their practical applications
- Chapters review areas such as surface morphology and residual stress, modelling surface structure, crystallisation of nickel-phosphorus deposits and hardness evolution
- An invaluable guide for researchers studying electroless deposits or materials science as well as for those working in the chemical, oil and gas, automotive, electronics and aerospace industries

From reader reviews:

Jonathan Flannagan:

What do you consider book? It is just for students because they're still students or it for all people in the world, what best subject for that? Only you can be answered for that question above. Every person has diverse personality and hobby per other. Don't to be forced someone or something that they don't would like do that. You must know how great as well as important the book Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering). All type of book can you see on many resources. You can look for the internet options or other social media.

William Prentice:

Do you one of people who can't read pleasurable if the sentence chained within the straightway, hold on guys this particular aren't like that. This Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) book is readable simply by you who hate the straight word style. You will find the info here are arrange for enjoyable studying experience without leaving actually decrease the knowledge that want to deliver to you. The writer involving Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) content conveys thinking easily to understand by many individuals. The printed and e-book are not different in the written content but it just different as it. So , do you nevertheless thinking Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) is not loveable to be your top checklist reading book?

Teresa Hennessey:

The book untitled Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) is the reserve that recommended to you to see. You can see the quality of the publication content that will be shown to you actually. The language that publisher use to explained their way of doing something is easily to understand. The writer was did a lot of exploration when write the book, hence the information that they share to you is absolutely accurate. You also will get the e-book of Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) from the publisher to make you considerably more enjoy free time.

Toni Sargent:

What is your hobby? Have you heard that will question when you got pupils? We believe that that query was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. Therefore you

know that little person including reading or as looking at become their hobby. You need to know that reading is very important as well as book as to be the matter. Book is important thing to add you knowledge, except your current teacher or lecturer. You see good news or update about something by book. Amount types of books that can you go onto be your object. One of them is actually Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering).

Download and Read Online Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) W Sha, Xiaomin Wu, K G Keong #QL63H1GCTOP

Read Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) by W Sha, Xiaomin Wu, K G Keong for online ebook

Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) by W Sha, Xiaomin Wu, K G Keong Free PDF download, audio books, books to read, good books to read, cheap books, good books, online books, books online, book reviews epub, read books online, books to read online, online library, greatbooks to read, PDF best books to read, top books to read Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) by W Sha, Xiaomin Wu, K G Keong books to read online.

Online Electroless Copper and Nickel-Phosphorus Plating: Processing, Characterisation and Modelling (Woodhead Publishing Series in Metals and Surface Engineering) by W Sha, Xiaomin Wu, K G Keong ebook PDF download
