How do successful people become even more successful?

Almost all effective people share a common trait – they set detailed goals, and plan the amount of effort they require to put into any project they wish to start. They leave no stone unturned in the process, and live by the DIY – do-it-yourself formula.

Success in life requires more than an academic qualification; it requires strength of character and a will to be different.

In this book you will read real life stories and incidents that offer valuable messages, inspired by the life of a man who believed in himself. This is not an autobiography but the clear essence of success in life.
