In order to exchange knowledge, humans need to share a common lexicon of words as well as

to access the world models underlying that lexicon. What is a natural process for a human turns out to be an extremely hard task for a machine: computers can't represent knowledge as effectively as humans do, which hampers, for example, meaning disambiguation and communication. Applied ontologies and NLP have been developed to face these challenges. Integrating ontologies with (possibly multilingual) lexical resources is an essential requirement to make human language understandable by machines, and also to enable interoperability and computability across information systems and, ultimately, in the Web.

This book explores recent advances in the integration of ontologies and lexical resources, including questions such as building the required infrastructure (e.g., the Semantic Web) and different formalisms, methods and platforms for eliciting, analyzing and encoding knowledge contents (e.g., multimedia, emotions, events, etc.).

The contributors look towards next-generation technologies, shifting the focus from the state of the art to the future of Ontologies and Lexical Resources. This work will be of interest to research scientists, graduate students, and professionals in the fields of knowledge engineering, computational linguistics, and semantic technologies.

### **From reader reviews:**

#### **April Hannah:**

Do you have something that you enjoy such as book? The book lovers usually prefer to select book like comic, small story and the biggest you are novel. Now, why not attempting New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) that give your pleasure preference will be satisfied through reading this book. Reading addiction all over the world can be said as the way for people to know world much better then how they react to the world. It can't be claimed constantly that reading routine only for the geeky man but for all of you who wants to possibly be success person. So , for every you who want to start studying as your good habit, it is possible to pick New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) become your current starter.

#### **Miranda Wenger:**

Beside that New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) in your phone, it could give you a way to get closer to the new knowledge or information. The information and the knowledge you might got here is fresh from oven so don't be worry if you feel like an old people live in narrow small town. It is good thing to have New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) because this book offers for your requirements readable information. Do you occasionally have book but you rarely get what it's exactly about. Oh come on, that will not happen if you have this in your hand. The Enjoyable blend here cannot be questionable, including treasuring beautiful island. So do you still want to miss this? Find this book along with read it from at this point!

#### **Soledad Neeley:**

As we know that book is very important thing to add our know-how for everything. By a book we can know everything we wish. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This reserve New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) was filled concerning science. Spend your extra time to add your knowledge about your scientific research competence. Some people has distinct feel when they reading any book. If you know how big selling point of a book, you can experience enjoy to read a book. In the modern era like now, many ways to get book that you simply wanted.

#### **William Henslee:**

Do you like reading a e-book? Confuse to looking for your favorite book? Or your book had been rare? Why so many concern for the book? But any people feel that they enjoy intended for reading. Some people likes looking at, not only science book and also novel and New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) as well as

others sources were given knowledge for you. After you know how the great a book, you feel desire to read more and more. Science publication was created for teacher or even students especially. Those books are helping them to add their knowledge. In some other case, beside science reserve, any other book likes New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) to make your spare time a lot more colorful. Many types of book like here.
