## **Raízes históricas da medicina ocidental (Portuguese Edition)** Raymundo Manno Vieira

Este livro tem por objetivo oferecer ao leitor um largo panorama da evolução do cuidado com a saúde, mostrando a multiplicidade e variedade de legados culturais que confluíram na formação do que hoje conhecemos por medicina. Fruto de grande pesquisa de um médico experiente e com vastas leituras de filosofia e história, o volume apresenta em sequência cronológica uma síntese dos preceitos e práticas de diversos povos em sua luta por conhecer e combater as doenças. Desde as remotas civilizações da Mesopotâmia e do Nilo até a Helênica, berço da doutrina hipocrática; desde fenícios, persas, hebreus e etruscos até a Europa Medieval e Islâmica, contemplam-se todas as etapas e facetas do processo que, na Renascença e no Século das Luzes, ensejou a transformação das artes médicas numa ciência moderna. Uma obra de consulta útil tanto para o leigo interessado em conhecer a genealogia da ciência médica como para o estudante, o docente e o profissional que queira ampliar seus horizontes para além dos limites de sua especialidade.
