**Theodoret of Cyrus (The Early Church Fathers)** Istvan Pasztori-Kupan

The larger part of Theodoret of Cyrus' existant body of work still remains untranslated, and this lack provides a fragmented representation of his thought and has lead to his misrepresentation by ancient, medieval and some modern scholars.

*Theodoret of Cyrus* presents a fresh collection of texts from all periods of his career, including two complete treatises (*On the Trinity* and *On the Incarnation*) as well as representative selections from two others (*A Cure of Greek Maladies* and *A Compendium of Heretical Mythification*) so far unpublished in English, with a critical introduction concerning his life, legacy and place in the history of Christian doctrine.

This book provides the reader with a more balanced picture of Theodoret's often neglected, depreciated and largely inaccessible theological legacy.
