La guerra del mundo: Los conflictos del siglo XX y el declive de Occidente (1904-1953) (Spanish Edition) Niall Ferguson

Una revolucionaria reinterpretación de la historia contemporánea y arroja nueva luz sobre el eterno conflicto entre este y oeste.

El siglo XX se abrió con la promesa de los mayores avances científicos y tecnológicos de la historia de la humanidad. Sin embargo, pronto se convirtió en el más sangriento de la historia. ¿Cómo explicar la intensidad y alcance de la violencia desatada en lo que fue realmente una «guerra del mundo»?

Niall Ferguson aborda en su libro más ambicioso hasta la fecha la respuesta a esta pregunta, la paradoja fundamental de esta «Edad del Odi» de la historia, que asoló ciudades y exterminó a millones de personas mientras el nivel de vida de gran parte de la población mundial mejoraba imparablemente.

Con su característica brillantez, rigor y originalidad, *La guerra del mundo* explica cuál fue el problema de la modernidad en un viaje que le lleva de la estepa siberiana a las playas de Okinawa, de las llanuras polacas a los cementerios de Guatemala y de las calles de Sarajevo a los campos de exterminio de Camboya.

Reseñas:

«Absorbente... muy entretenida y estimulante.»

Financial Times

«Un libro fascinante gracias a la capacidad de Ferguson de escribir historia con claridad y con brío.»

The Washington Post
