Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals)

Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals)

Building upon the success of the bestselling first volume, Functional Foods: Biochemical and Processing Aspects, Volume II explores new sources of nutraceutical and functional food ingredients and addresses crucial issues for product development and processing. It presents the latest developments in the chemistry, biochemistry, pharmacology, epidemiology, engineering, and processing of functional foods. The book provides recent information on important functional food components, including up-to-date evaluations of bioactive compounds. Presenting information on the distribution of functional food components in different sources and their engineering properties, this book provides the essential information for the food industry to develop successful new products.

Each chapter presents an in-depth review of a major functional food component, providing:

Chemical, physical properties and molecular structure - derivatives and possible isomers, distribution in biological material

Nutritional, physiological, and clinical functionality - including safety, bioactivity, bioavailability, efficacy in human diet and health, pharmacological properties

Separation technology - in the laboratory and commercial production

Processing - chemical, physical, and engineering properties during processing, process system, processing equipment, quality control in production

Shelf-life - including storage conditions and stability

Identification techniques - including HPLC, GC, MS, and NMR

Standards and regulations - FDA, EC, FAO/WHO, Health Canada

Utilization - applications, current and potential markets

From reader reviews:

Theodore May:

The book Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) can give more knowledge and information about everything you want. Why then must we leave the good thing like a book Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals)? A few of you have a different opinion about book. But one aim in which book can give many details for us. It is absolutely right. Right now, try to closer with your book. Knowledge or facts that you take for that, you are able to give for each other; it is possible to share all of these. Book Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) has simple shape but the truth is know: it has great and massive function for you. You can seem the enormous world by open and read a reserve. So it is very wonderful.

Paul Kline:

This book untitled Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) to be one of several books which best seller in this year, this is because when you read this e-book you can get a lot of benefit into it. You will easily to buy this particular book in the book retail store or you can order it by using online. The publisher on this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Smartphone. So there is no reason for your requirements to past this reserve from your list.

Arthur Elsberry:

The publication untitled Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) is the guide that recommended to you to see. You can see the quality of the book content that will be shown to you. The language that writer use to explained their ideas are easily to understand. The article author was did a lot of investigation when write the book, hence the information that they share to your account is absolutely accurate. You also will get the e-book of Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) from the publisher to make you a lot more enjoy free time.

Robert Lindsey:

A lot of people always spent their particular free time to vacation or go to the outside with them family members or their friend. Do you realize? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you would like try to find a new activity this is look different you can read the book. It is really fun for you personally. If you enjoy the book which you read you can spent all day long to reading a guide. The book Functional Foods: Biochemical and Processing Aspects, Volume 2: 002 (Functional Foods and Nutraceuticals) it is quite good to read. There are a lot of people who recommended this book. These people were enjoying reading this book. If you did not have enough space to

develop this book you can buy the e-book. You can m0ore easily to read this book out of your smart phone. The price is not too expensive but this book provides high quality.
