Globalization and New International Public Works Agreements in Developing Countries: An Analytical Perspective

Mohamed A M, Judge Dr Ismail

Globalization and New International Public Works Agreements in Developing Countries: An Analytical Perspective Mohamed A M, Judge Dr Ismail

This book scrutinizes the new legal nature and stipulations of International Public Works Agreements and provides an in-depth analysis of new forms of infrastructure agreements which have been created in developing countries, such as PPPs. The volume also examines the direct impact of the new legal environment upon infrastructure transactions such as dispute resolutions and ADR mechanisms, in particular, arbitration. It provides an analytical perspective on international public works agreements in developing states in the light of ICC rules of arbitration and FIDIC forms of contracts. As globalization significantly influences le contrat administratif in civil law legal culture, this book examines the legal cultures of civil and common law from a comparative perspective. The author argues that harmonization and integration of the two cultures, in infrastructure agreements, are the way forward.

The book will be a fundamental guide for researchers and academics working in this area as well as judges, lawyers and international arbitrators in both common law jurisdictions and civil law legal systems.
