Imagine Clara McCallum's astonishment when she steps off an old-fashioned locomotive from a movie set and finds herself whisked back in time to 1941, and into the arms of Jed Landry, a man whom Clara has read about and studied, a man who is very much alive in 1941 but whom she knows will die a hero at Normandy three years later-or is it 62 years ago?

Clara's convinced it's some sort of hallucination, but before long she finds herself swept away by the handsome soldier, and wondering if maybe her plunge into the past could change the course of the future-and turn out to be the best Christmas present ever.
