Musical Form and Transformation: Four Analytic Essays David Lewin

Distinguished music theorist and composer David Lewin (1933-2003) applies the conceptual framework he developed in his earlier, innovative *Generalized Musical Intervals and Transformations* to the varied repertoire of the twentieth century in this stimulating and illustrative book. Analyzing the diverse compositions of four canonical composers--Simbolo from Dallapiccola's *Quaderno musicale di Annalibera* ; Stockhausen's *Klavierstück III* ; Webern's *Op. 10, No. 4*; and Debussy's *Feux d'artifice* --Lewin brings forth structures which he calls "transformational networks" to reveal interesting and suggestive aspects of the music. In this complementary work, Lewin stimulates thought about the general methodology of musical analysis and issues of large-scale form as they relate to transformational analytic structuring. *Musical Form and Transformation* , first published in 1993 by Yale University Press, was the recipient of an ASCAP Deems Taylor Award.
