For almost fifty years, the Zionist labour movement led the Jewish community in Palestine and later, in the State of Israel. Among the close-knit group of its founding fathers, Berl Katznelson was a unique figure. He was an intellectual, a politician, a man of letters, a statesman and the initiator of many of the social and economic institutions THAT shaped the face of the movement and in its wake, the character of the country as a whole. The biography of Berl is more than the biography of an individual: it is the story of a movement. The book traces Berl from a young Russian socialist and romantic pioneer on the shores of the Sea of Galilee, into the propounder of a work ethic and the founder of the central political current of the Israeli labour movement. The development of this movement is depicted against the background of the major political events of the period: Jewish-Arab relations, the European crisis of the thirties as it affected the Jewish people and the successes and failures of Zionist policy. It is required reading for anyone who wants to understand in depth the complexity of Israeli society today.
