**7th International VDZ Congress: Process Technology of Cement Manufacturing** Verein Deutscher Zementwerke e.V.

In September 2013 the VDZ extended a warm welcome to the delegates of the 7th International VDZ Congress "Process Technology of Cement Manufacturing". From 25 - 27 September the congress again served as a forum for the cement industry, with engineers, researchers and equipment suppliers sharing their knowledge on state-of-the-art cement manufacturing technology.

Nearly forty speakers from around the world reported on their specialist fields. More than six hundred participants from almost 50 countries heard lectures on topics of high relevance to those working along the value chain of cement and concrete. In times of an about-turn in energy policy, sustainability, energy efficiency and the use of natural resources were again key topics, as well as technical advancement in grinding and burning technology. An outlook on future developments in the global cement and energy markets and research reports on new cements completed the congress programme.

Even if the global economy is still facing enormous challenges and the economic growth of the emerging countries has slowed down, cement remains a building material without which modern society could not function. Technological progress and the predicted increase in global demand for cement are the basis for the future growth of our industry. The VDZ Congress 2013 has once again illustrated how cement producers and users, researchers and equipment suppliers can work together to successfully master the challenges our industry faces.

### **From reader reviews:**

#### **Linda Porter:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite guide and reading a guide. Beside you can solve your problem; you can add your knowledge by the e-book entitled 7th International VDZ Congress: Process Technology of Cement Manufacturing. Try to stumble through book 7th International VDZ Congress: Process Technology of Cement Manufacturing as your friend. It means that it can to be your friend when you sense alone and beside that of course make you smarter than before. Yeah, it is very fortunated for you. The book makes you far more confidence because you can know almost everything by the book. So , let me make new experience as well as knowledge with this book.

#### **Melanie Young:**

Reading a guide can be one of a lot of pastime that everyone in the world really likes. Do you like reading book consequently. There are a lot of reasons why people enjoyed. First reading a guide will give you a lot of new data. When you read a e-book you will get new information mainly because book is one of numerous ways to share the information or even their idea. Second, studying a book will make a person more imaginative. When you studying a book especially fictional works book the author will bring one to imagine the story how the personas do it anything. Third, you can share your knowledge to other individuals. When you read this 7th International VDZ Congress: Process Technology of Cement Manufacturing, you are able to tells your family, friends as well as soon about yours e-book. Your knowledge can inspire others, make them reading a publication.

#### **Joseph Boyd:**

People live in this new day of lifestyle always try and and must have the spare time or they will get lot of stress from both lifestyle and work.
