One Night in the Everglades (Long Term Ecological Research)

Laurel, Ph.D. Larsen

One Night in the Everglades (Long Term Ecological Research) Laurel, Ph.D. Larsen

Follow two scientists as they spend a night in the Everglades collecting water samples, photographing wildlife, and sloshing through marshes in an attempt to understand this mysterious ecosystem. Part of a long-term effort to return the Everglades to a natural state after a century of development, the scientists try to figure out what the “river of grass” was like prior to human settlement. Along the way, they deal with razor-sharp sawgrass and alligators and turtles and are even surprised by the sudden presence of what is known in the Everglades as a “frog gigger”—one who hunts and collects frogs for food!

Published in cooperation with the Long Term Ecological Research Network, which is funded by the National Science Foundation.
