Emerging Powers in a Comparative Perspective: The Political and Economic Rise of the BRIC Countries

Emerging Powers in a Comparative Perspective: The Political and Economic Rise of the BRIC Countries

The book examines the rising influence of emerging powers in global politics, with a special focus on the BRIC countries (Brazil, Russia, India, China).

Chapters contributed by international scholars first look at the changing status of the US in the 21st century and at the EU as both an emerging and innovative power. China's rising power status, India's regional and global influence, Russia's re-emergence, and Brazil's growing regional and international role are then analyzed comparatively to explain how the BRIC states are poised to become vital players not only in politics and economy, but also in key international concerns such as terrorism, globalization, and climate change.

The book provides a detailed analysis of political, economic, security, and foreign policy trends in the BRIC countries to address such questions as to whether they will seek to revise the international order or work within it and how they will deal with transnational global problems. Using a unique comparative approach, the text will appeal to undergraduate students in world politics, international relations, and foreign policy.
