**Le civiltà stellari (Italian Edition)** Ignazio Burgio

PREMIO NAZIONALE CRONACHE DEL MISTERO 2014.

Terza e definitiva edizione di un saggio molto apprezzato che ripercorre la genesi e lo sviluppo delle conoscenze astronomiche dei popoli antichi, nonché l'origine, le trasformazioni, e il significato archeoastronomico di miti e simboli arcaici come la nascita di Venere, il labirinto, il misterioso zed egizio, ecc. In questo volume sono comprese anche le straordinarie scoperte fatte dall'autore in persona nella Grotta di Polifemo nei pressi di Trapani, dove si trova la più antica rappresentazione al mondo di un labirinto: le osservazioni archeoastronomiche sul luogo sono state recentemente confermate dai ricercatori siciliani e romani.

Con un occhio particolare ai mutamenti climatici che si sono avvicinati sul nostro pianeta a partire dalla fine dell'ultima glaciazione - per l'interruzione della Corrente del Golfo, eruzioni vulcaniche, asteroidi o semplicemente per la naturale variazione dell'asse terrestre nel corso dei millenni - vengono seguite la nascita e la fine misteriosa di molte civiltà dalle conoscenze astronomiche sofisticate ed ancora non del tutto comprese, sia nel Vecchio Continente come anche in America.

Anche molti enigmi del passato trovano in questo libro risposte più convincenti: le città sommerse al largo delle coste israeliane, il simbolismo solstiziale delle figure "a clessidra", le "città-labirinto" o anche i colossali e misteriosi monumenti egizi, il cui significato affonda in realtà nella storia precedente l'unificazione dell'antica terra faraonica.

Al libro è stato assegnato il PREMIO NAZIONALE CRONACHE DEL MISTERO 2014.
