Cold-Formed Steel Design

Wei-Wen Yu, Roger A. LaBoube

Cold-Formed Steel Design Wei-Wen Yu, Roger A. LaBoube

The definitive text in the field, thoroughly updated and expanded

Hailed by professionals around the world as the definitive text on the subject, Cold-Formed Steel Design is an indispensable resource for all who design for and work with cold-formed steel. No other book provides such exhaustive coverage of both the theory and practice of cold-formed steel construction. Updated and expanded to reflect all the important developments that have occurred in the field over the past decade, this Fourth Edition of the classic text provides you with more of the detailed, up-to-the-minute technical information and expert guidance you need to make optimum use of this incredibly versatile material for building construction.

Wei-Wen Yu and Roger LaBoube, respected authorities in the field, draw upon decades of experience in cold-formed steel design, research, teaching, and development of design specifications to provide guidance on all practical aspects of cold-formed steel design for manufacturing, civil engineering, and building applications. Throughout the book, they describe the structural behavior of cold-formed steel members and connections from both the theoretical and experimental perspectives, and discuss the rationale behind the AISI and North American design provisions. Cold-Formed Steel Design, Fourth Edition features:

- Thoroughly up-to-date 2007 North American (AISI S100) design specifications
- Both ASD and LRFD methods for USA and Mexico
- LSD (Limit States Design) method for Canada
- A new chapter on the Direct Strength Method
- Updates and revisions of all 14 existing chapters
- In-depth design examples and explanation of design provisions

Cold-Formed Steel Design, Fourth Edition is a necessary tool-of-the-trade for structural engineers, manufacturers, construction managers, and architects. It is also an excellent advanced text for college students and researchers in structural engineering, architectural engineering, construction engineering, and related disciplines.

From reader reviews:

Anna Maples:

Have you spare time to get a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a stroll, shopping, or went to typically the Mall. How about open or even read a book entitled Cold-Formed Steel Design? Maybe it is to get best activity for you. You already know beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with it is opinion or you have different opinion?

Carol Johnson:

As people who live in the modest era should be change about what going on or data even knowledge to make these keep up with the era that is always change and move forward. Some of you maybe will certainly update themselves by studying books. It is a good choice to suit your needs but the problems coming to you is you don't know what type you should start with. This Cold-Formed Steel Design is our recommendation so you keep up with the world. Why, since this book serves what you want and want in this era.

Jessica Kelly:

Are you kind of busy person, only have 10 or maybe 15 minute in your time to upgrading your mind skill or thinking skill even analytical thinking? Then you are receiving problem with the book than can satisfy your short space of time to read it because this all time you only find reserve that need more time to be go through. Cold-Formed Steel Design can be your answer mainly because it can be read by you who have those short spare time problems.

Sharon Brogdon:

A lot of reserve has printed but it differs. You can get it by online on social media. You can choose the very best book for you, science, comic, novel, or whatever simply by searching from it. It is identified as of book Cold-Formed Steel Design. You can add your knowledge by it. Without leaving behind the printed book, it could add your knowledge and make anyone happier to read. It is most essential that, you must aware about book. It can bring you from one spot to other place.
