CMOS Cellular Receiver Front-Ends: from Specification to Realization deals with the design of the receive path of a highly-integrated CMOS cellular transceiver for the GSM-1800 cellular system. The complete design trajectory is covered, starting from the documents describing the standard down to the systematic development of CMOS receiver ICs that comply to the standard. The design of CMOS receivers is tackled at all abstraction levels: from architecture level, via circuit level, down to the device level, and the other way around.

The theoretical core of the book discusses the fundamental and more advanced aspects of RF CMOS design. It focuses specifically on all aspects of the design of high-performance CMOS low-noise amplifiers.

From reader reviews:

Steven Campbell:

Have you spare time to get a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a move, shopping, or went to the Mall. How about open or even read a book called Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science)? Maybe it is for being best activity for you. You realize beside you can spend your time along with your favorite's book, you can more intelligent than before. Do you agree with its opinion or you have other opinion?

Danielle Deguzman:

Book is to be different for every grade. Book for children right up until adult are different content. As it is known to us that book is very important for us. The book Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science) ended up being making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The publication Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science) is not only giving you a lot more new information but also to get your friend when you truly feel bored. You can spend your own personal spend time to read your book. Try to make relationship together with the book Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science). You never feel lose out for everything in case you read some books.

Thomas Dacosta:

Nowadays reading books become more and more than want or need but also be a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the particular information inside the book this improve your knowledge and information. The information you get based on what kind of reserve you read, if you want drive more knowledge just go with education books but if you want really feel happy read one together with theme for entertaining including comic or novel. The actual Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science) is kind of guide which is giving the reader unforeseen experience.

Jose Brown:

Does one one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Aim to pick one book that you find out the inside because don't determine book by its deal with may doesn't work at this point is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside appearance likes. Maybe you answer could be Content-Based Video Retrieval: A Database Perspective (The Springer International Series in Engineering and Computer Science) why because the

amazing cover that make you consider with regards to the content will not disappoint anyone. The inside or content is usually fantastic as the outside or perhaps cover. Your reading 6th sense will directly make suggestions to pick up this book.
