What the Night Demands

Miles Walser

What the Night Demands Miles Walser

Miles Walser unearths the concept of the binary in his long-awaited first poetry collection. While Walser's lionhearted deconstruction of gender tackles trans identity in a way no living poet has before, he also dismantles other alleged dichotomies such as loneliness and introversion, softness and rage, mathematics and art. He acknowledges the existence of all these 'opposites' and their place inside the author. Walser bares so much of his many-hued self that the reader can't help but turn inwards. The reader does not simply watch the author bloom in these poems but the open-minded reader is bound to bloom also.
