Professional standards will help to ensure excellence in the American school superintendency. Developed by a special AASA Commission on Standards for the Superintendency and reviewed by a national 'Jury of 100' business and education leaders, these eight standards combine administrative knowledge with research on performance goals, competencies and skills in the following areas: leadership and district culture; policy and governance; communications and community relations; organizational management; curriculum planning and development; instructional management; human resources management; and the values and ethics of leadership.
