Cellular Factors Involved in Early Steps of Retroviral Replication. Current Topics in Microbiology and Immunology, No. 281

Cellular Factors Involved in Early Steps of Retroviral Replication. Current Topics in Microbiology and Immunology, No. 281

The articles in this volume provide a comprehensive overview of our current understanding of the roles played by cellular factors in the early steps of retroviral replication. A better understanding of these functions will provide critical new insights into retrovirus-host cell interactions and is likely to prove useful for the future development of effective antiretroviral therapies.
