**Creating Human Development Theories: A Guide for the Social Sciences and Humanities** R. Murray Thomas

How—and why—do humans develop as they do? This book clearly explains the key components of human development theories and describes how to compose novel theories regarding this age-old puzzle.

- Succinctly describes the theory-construction process in language free from technical jargon that is accessible to college students or general readers interested in the nature and structure of theories
- Identifies the essential components that comprise theories—scientific explanations—of the human-development process, allowing readers to see how different thinkers address common concepts in their well-known theories
- Offers five new theories built according to the guidelines proposed in the explanation of human development theory components
